

World Greener Forum Since

1998

Green Band (GB) was established in 1998 at Sendai in the Tohoku region of Japan. GB is an international brass band aimed to increase green plants on our planet. Its members go overseas to hold the "Green Concert", and fund by the donation from the audiences. By utilizing the fund, they do activities such as planting trees and protecting animals from cruelty. GB can be played by one band, or other times, some schools can play it together. GB is the group of youth and their leaders who are interested in music and environment hoping to contribute to increase plants on our planet. The phrase, "environmental volunteer beyond borders" may give you a clearer image of GB.
